Re: Application of American Transmission Company, as an Electric
Public Utility, to Build a New 138 kV Transmission Line From the
North Madison Substation to the Huiskamp Substation in the
Towns of Vienna and Westport, and the Village of Waunakee,
Dane County, WI

137-CE-139

To the Person Addressed:

Please make a copy of this document available for public review through January 2007.

The enclosed document is an addendum to the application of American Transmission Company LLC for authority to construct certain electric transmission lines and related facilities, commonly referred to as the "North Madison-Huiskamp Project" or the "Waunakee Project." You were mailed a copy of the original application in February 2006.

The Public Service Commission (PSC) is sending a copy of this addendum to the clerk of each municipality, town, and county in which the proposed facilities are located, and to libraries in the project area. We are referring interested public to you when they wish to review a hard copy of the application.

The Commission maintains its files electronically and these are available to the public on the PSC web site. To access them, fill out the three boxes on the PSC's home page with the numbers and letters of the official docket number for this case (137, CE, and 139).

If you have any questions, please call me at 267-3597 or e-mail valerie.mellerop@psc.state.wi.
Thank you for your assistance.

Sincerely,

/s/ Valerie Mellerop
